

Respondus "Lock Down" browser

All students will be required to download and install the Respondus "lock down" browser. There are 15 steps shown here and the process should take less than six minutes from start to finish.

This document and the download link are available on <https://bishoplynch.blackboard.com/> without a login.

Installing the Respondus Browser

(Thursday, July 31, 2014)

All students will be required to download and install the Respondus "lock down" browser. Note that you cannot download this file while on the BL network.

➔ Note that you cannot download the installation file while on the BL network.

Link: <http://www.respondus.com/lockdown/download.php?id=333744543>

Step #1: Review the **System requirements** (online or see below)

Step #2: (Optional) Switch over if you need the **Mac version**

Step #3: (Optional) **Watch the overview video** (less than 3 minutes)

Step #4: Click Install Now (in the **purple box** in the image below)

Step #5: Be patient.

A screenshot of the Respondus LockDown Browser installation page. The browser address bar shows the URL: www.respondus.com/lockdown/download.php?id=333744543. The page header includes the Respondus logo and "Assessment Tools for Learning Systems". The main content is divided into three columns: 1. "LockDown Browser" section with a large padlock icon, version 1.0.7.02, and system requirements (Windows). It has two buttons: "System requirements" (highlighted with a red box) and "Do you need the Mac version?" (highlighted with a green box). 2. "Before You Install:" section with a video player showing a play button and the text "ONLINE EXAM". 3. "Terms & Conditions:" section with a note about antivirus software and a large yellow "Install Now" button (highlighted with a purple box). The total size of the software is 4.4 MB. The page is labeled "Step: 1 of 2".

System requirements

Operating Systems

Windows: 8, 7, Vista, XP

Mac: OS X 10.5 or higher

Memory

Windows: 128 MB RAM

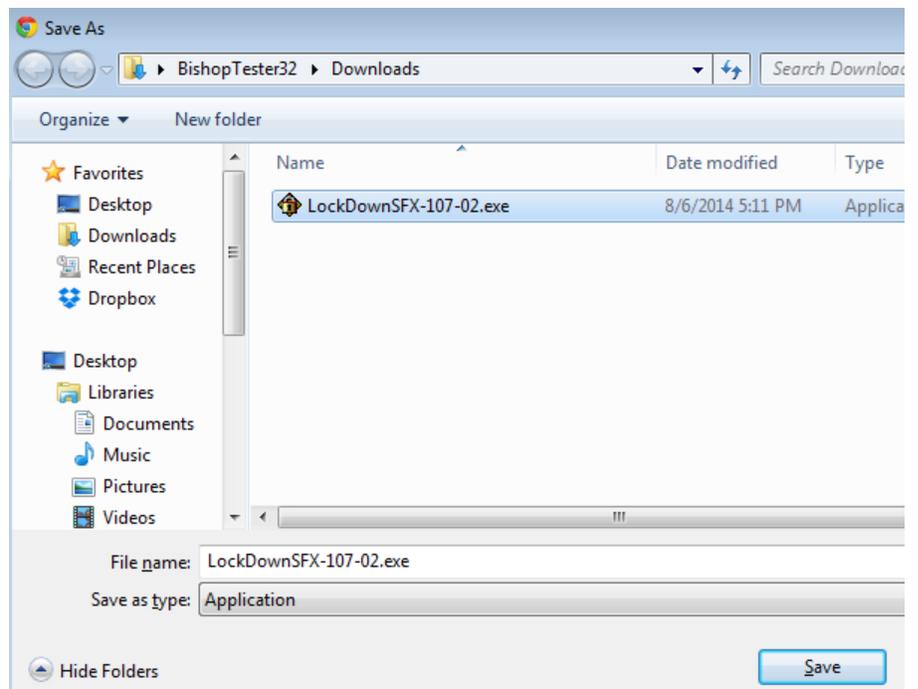

Mac: 512 MB RAM

Hard Disk Space

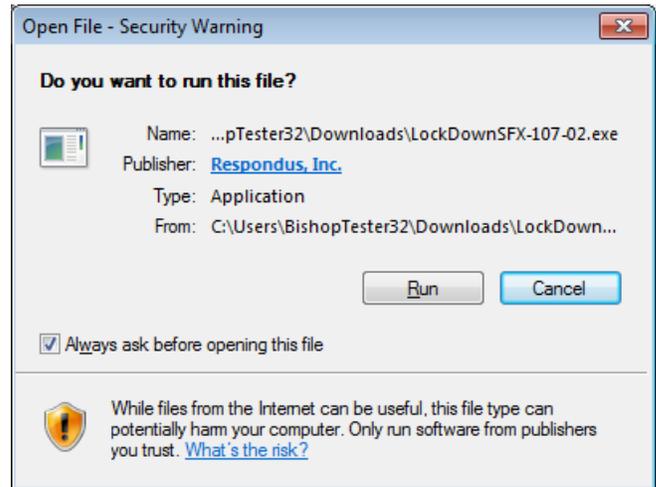

Windows: 4 MB of free hard disk space

Mac: 2 MB of free hard disk space

Step #6: Depending on the configuration of your computer some of the specifics of the next few steps may vary, but download the .exe file (**LockDownSFX-107-02 .exe** in this example) and **remember** where you put it (the **Downloads** folder, in this example).

Step #7: Execute the file (by double-clicking it).

Step #8: Answer **Run** (or **Yes** or **Continue** or whatever the affirmative verb is in your configuration).

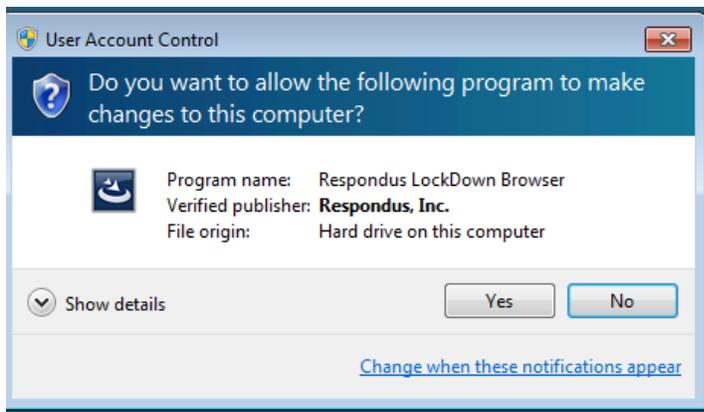

Step #9: You may need to actually “click” the “Click to Install” button.

OR

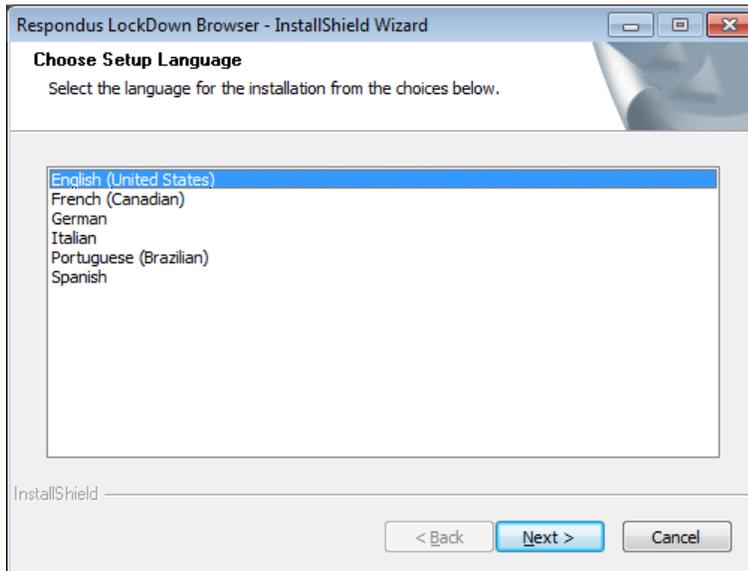

the program may start installing right away and you’ll just need to answer the security (User Account Control, UAC) question.

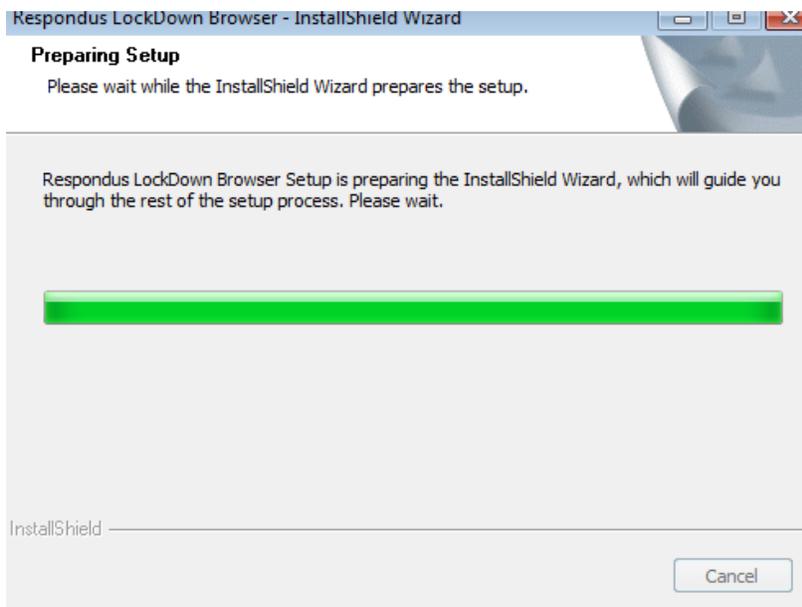

Answer **Run** (or **Yes** or **Continue** or whatever the affirmative verb is in your configuration).

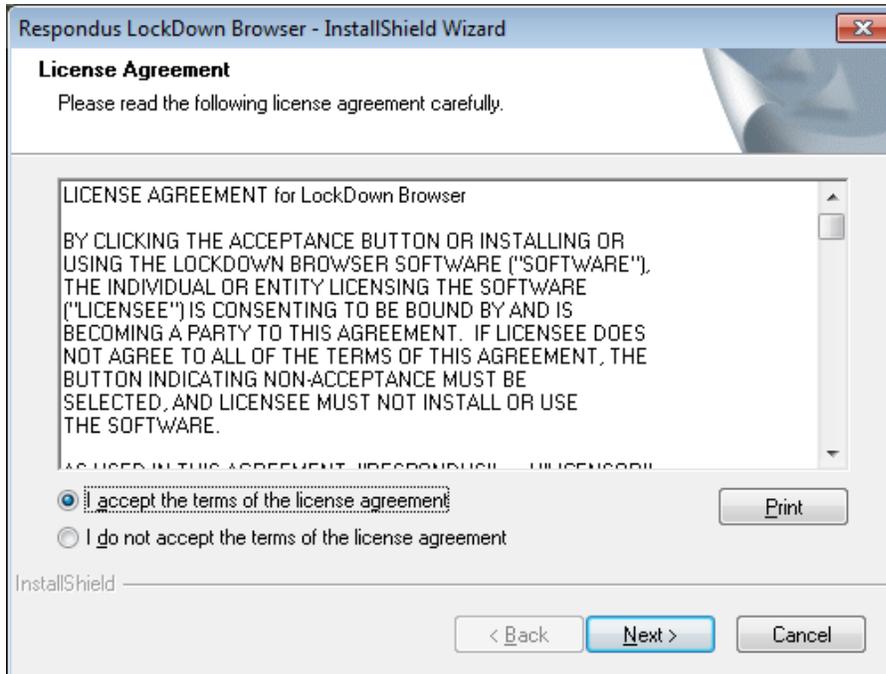

Step #10: Choose your language and click **Next** to continue

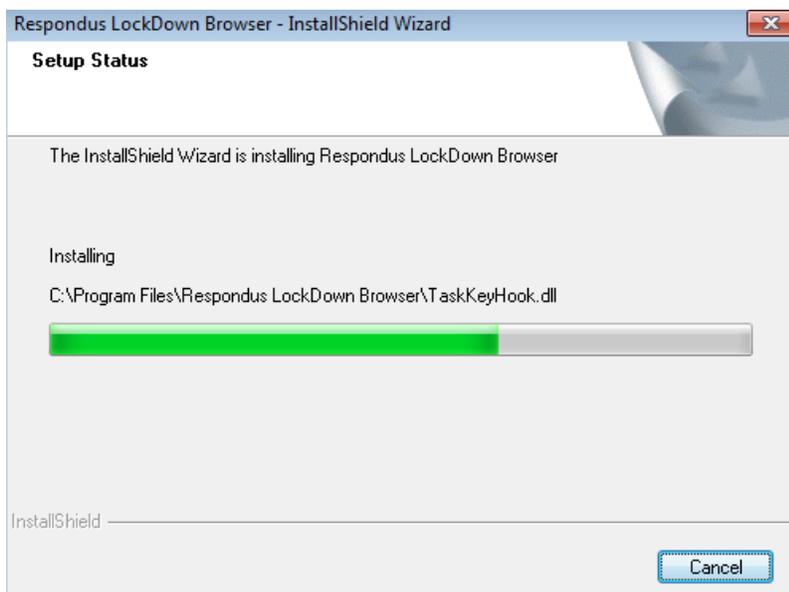

Step #11: This is progress

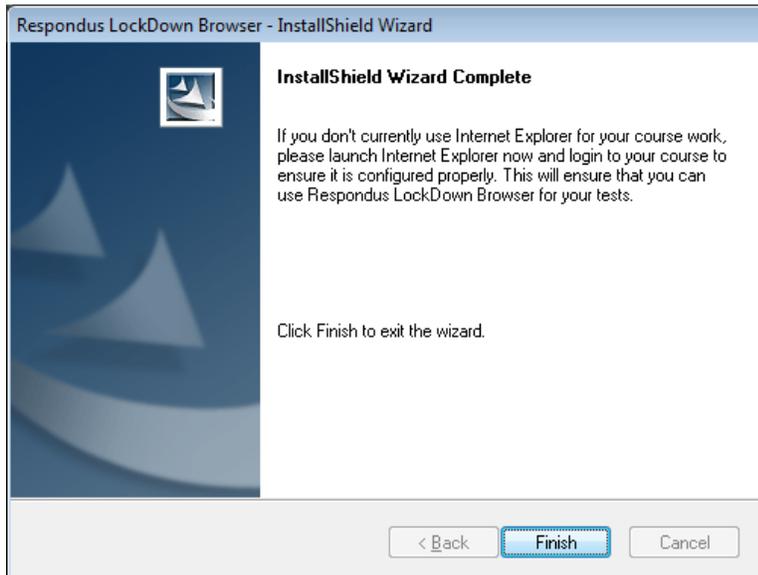

Step #12: Accept the License Agreement and click **Next** to continue

Step #13: This is progress

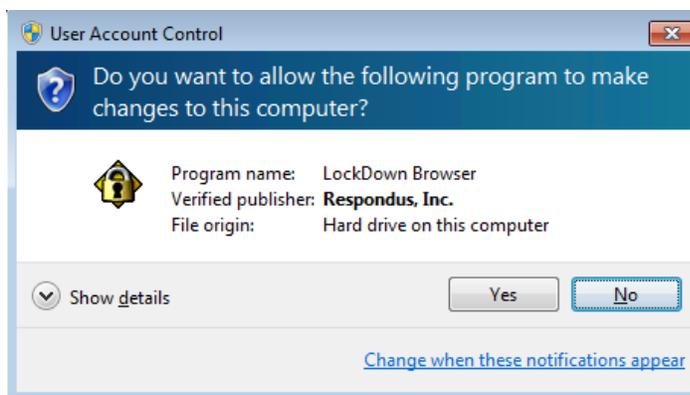

Step #14: This is the end... you can tell because it asks you to click **Finish**

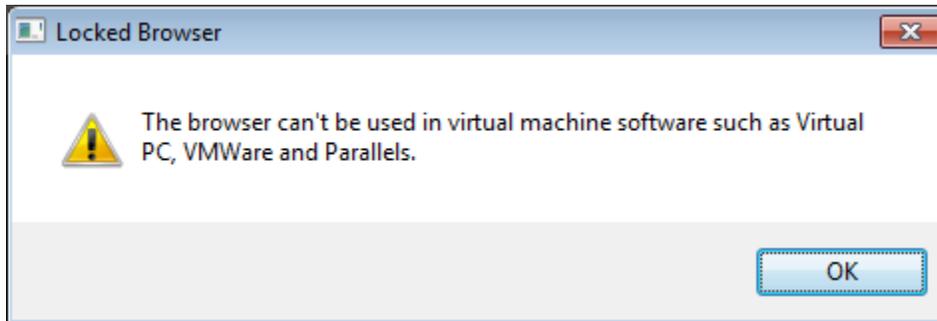

The browser icon is now on your computer desktop

Double-click to run the program (you may get another UAC challenge); click **Yes** to continue

Step #15: If you get the following message about installing the browser in a virtual PC, please visit the Technology Office in the Library
